SUMMARY

Full-Stack Developer with experience in building scalable web applications and integrating global fintech payment gateways. Proficient in Node.js, TypeScript, Ruby on Rails, MongoDB, and PostgreSQL. Experienced in developing internal operational dashboards, building RESTful APIs with strict security standards, writing automated tests, and deploying applications using Docker and CI/CD workflows.

EDUCATION

Chiang Mai University
Bachelor of Science in Computer (2021 - 2024)

EXPERIENCE

Full-Stack Developer **June 2025 - October 2026**
Dollar Smart Global Pte. Ltd

- Integrated global payment gateways using Node.js, TypeScript, and MongoDB, maintaining strict security standards such as Webhook verification, data encryption, and signature validation.
- Built RESTful APIs according to international payment partner specifications to smooth out transaction processing and payment workflows.
- Developed full-stack internal dashboards for key teams including Compliance, Operations, Liquidity, and Customer Support to improve real-time data visibility.
- Hardening website security and passing penetration tests for Bank of Thailand licensing and internal audits.
- Improved software quality by writing unit tests and API tests with Postman, while supporting UAT issue resolution to ensure system stability.
- Supported smooth software deployments using Docker, Git, and CI/CD tools to maintain stable releases and consistent development environments.

Intern Software Engineer **April 2024 - October 2024**
Banana Coding Co., Ltd.

- Interned as a software engineer at Banana Coding, contributing to the development of the ERP platform
- Developed a full-stack web application for managing company projects and staff, integrating Ruby on Rails for the backend and Angular for the frontend.
- Implemented key features such as project management, staff assignment, and role-based access control using PostgreSQL as the database.
